

# Welcome to the Talent Table!

## Reflection. Conversation. Practice.

Join us for a meaningful follow-up conversation where learning continues and leaders grow together.

**Talent Table** is a 90-minute virtual follow-up designed to help past participants continue to grow, develop, and sustain the skills introduced in class. Together, we will create a safe and supportive space to ask questions, explore real-life leadership challenges, and practice the tough conversations that matter most.

This session is a chance to reconnect with the learning, strengthen your confidence, and continue integrating practical tools that support clear, compassionate, and accountable leadership.
